INFORMED CONSENT FOR TRANSFUSION OF BLOOD AND BLOOD PRODUCTS

FORM B-3

To be used for patients receiving transfusion(s) as their medical treatment, which is not part of an invasive diagnostic, medical or surgical procedure.

I have been informed by_____ (Name of Attending Physician or Authorized Health Care Provider) of the risks, benefits and available alternatives to transfusion with blood and blood products.

It has been explained to me that although all blood and blood products by law are tested for the presence of potentially transmissible infectious agents including those known to cause AIDS, Hepatitis and Syphilis, it is not possible to completely eliminate the potential transmission of every harmful disease but the risk to me is minimal.

I also understand that on rare occasions transfusion reactions occur and may result in difficulty breathing, fever, pain, chills, nausea, jaundice, kidney damage, clotting disorders, anemia, heart failure and even death.

I have been given an opportunity to ask questions about my condition and the need to be transfused including alternative forms of therapy and I believe that I have received sufficient information to make this informed decision and I consent to the administration of blood and blood products.
